

The Racer's Clinic

Are You Qualified and Ready?

Six completed POC Time Trial Events (or fewer along with sufficient documented racing experience) are required for participation in The Racer's Clinic. Current race license holders from other organizations may qualify for a waiver of all or part of the Time Trial requirement. To apply for a waiver, contact the POC Club Office for a full application admission form. You may be required to submit the following:

1. Current S.C.C.A, P.C.A., V.A.R.A. Competition License or equivalent.
2. Certificate of Completion from an accredited Racing School (e.g. Bondurant, Barber, Russell)

Issuance of a waiver and/or acceptance into the Racers Clinic shall be at the discretion of the Race License Chairman and Chief Driving Instructor. POC reserves the right to investigate any and all information submitted by the candidate for consideration. Should any information be deemed unreliable or false the POC may, at its discretion, suspend all driving privileges and refer the candidate to the Board of Directors for further investigation.

The Porsche Owners Club will offer two Racer Clinics per year. Clinics will be announced with regular event flyers. The Racers Clinic will have its own Run Group (Blue). All Clinic participants will run in the Blue Group and will conclude with a Sprint Race on Sunday. Students may also complete their timed runs if they have entered the Time Trial.

Participants must complete all Clinic exercises and the Sprint Race to have their participation and subsequent graduation recorded in their Driver's Log Book. A candidate may be granted a Cup Racing License after successful completion of two Racer's Clinic weekends subject to final approval of the Race License Chairman and the Chief Driving Instructor. The Racer Clinic, as with all speed events sanctioned by The Porsche Owners Club, strictly adheres to the 13/13 rule. Safety rules for any Clinic weekend may be added or changed by the Instructor or Instructors.

All vehicles participating in the Racers Clinic must be Time Trial class legal. In addition, all vehicles must have a front tow hook, a window net (or arm restraints), and an electrical kill switch. No Exceptions!

Call Laurie Taylor now to reserve your spot and fill out the entry form below. The Clinic entry form must be included with your event entry and Base Entry fee. The Racer's Clinic Group is sure to fill up fast – don't delay in sending in this Entry Form!

(Please note: If you successfully complete the Racer's Clinic and are granted a Cup Race License, you may run in Sunday's Cup Race in your respective group. However, you may not run for points.)

POC Racers Clinic Entry Form: Detach and mail or fax to the Club Office
